Behavior Support Services

.....

Our Goals

In older adults, behavioral and cognitive conditions can present challenges for families and caregivers. Behavior Support Services (BSS) aims to reduce frustration, injuries, stress, placement failures and crisis situations that result when persons experiencing difficult behaviors and their caregivers lack needed supports.

WE'RE HERE TO HELP!

Who We Are

Woollard Ipsen Management (WIM) pioneered the Behavior Support Services (BSS) pilot project in 2009 to maintain placement in Community Based Care settings. WIM was the first to secure a BSS contract with the State of Oregon in 2012, serving up to 20 counties throughout Oregon in community based and in-home care settings. Please visit our website for a list of the counties that we currently serve, our TEAM members and the process on making either a Medicaid or Private Pay referral.

What We Do

POSITIVE BEHAVIOR SUPPORT

Our consultants become a partner and resource for the provider. We provide evaluation and training on techniques to reduce stress, turnover, burnout and ultimately to maintain current placement of our clients. The support plan is created in partnership with the individual and care team utilizing person centered care practices.
